

Rooftop pressurizer MISTRAL 3

The MISTRAL 3 pressurizer was designed to be easily adapted on the roof of all types of cabs on agricultural machinery and public works equipment working in a dusty atmosphere.

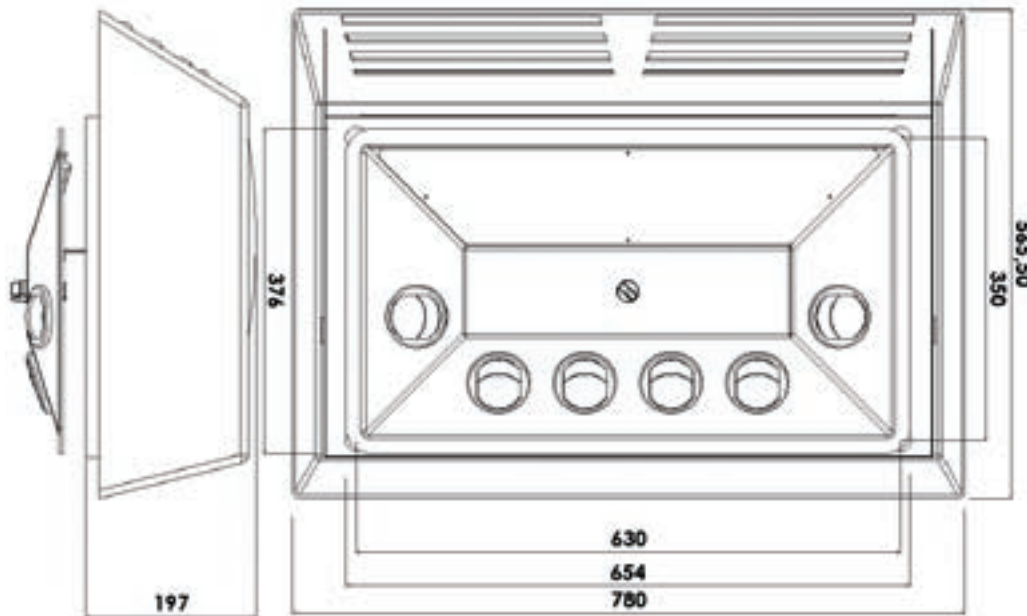

This unit is equipped with a powerful blower for good pressurization of the cab.

It integrates a combined dust and active carbon filtration system.

The ceiling panel is fitted with 6 multi-directional and closable air louvers and a fan speed selector.

TECHNICAL SPECIFICATIONS

Maximum air flow	1 130 m ³ /H (0 MM H ₂ O) 980 m ³ /H (20 MM H ₂ O)
Electrical power	414 W
Air filtration	Dust and active carbon EU5-F
Weight	15Kg

PART NUMBERS

P/N	Voltage
330A07	12V
330A08	24V
