

SILVER FUTURA DIAG R134a AUTOMATIC STATION

- **Refrigerant recovery**
- **Refrigerant recycling**
- **Vacuum operation**
- **Refrigerant charging**
- **Used oil discharge**
- **Oil and fluorecent dye weighting and injection**
- **Printing**
- **A/C system flushing with liquid refrigerant**
- **Data base**

Caractéristiques techniques

- Vacuum pump :	100 l / min
- Recovery compressor :	500 g / min
- Virgin oil injection :	automatic
- Oil purge :	automatic
- Gaz purge :	automatic
- Refrigerant weight measure system :	electric scale
- Electronic scale accuracy:	± 10 g
- Cylinder capacity :	28,2 Kg
- Dimensions :	1220 x 630 x 625 mm
- Power supply :	220 Volts 50/60hz
- Power consumption :	770 Watt
- Hoses length :	2000 mm
- Data base :	Yes
